

How's your water treating you? With the HANS™ Premium Water by Culligan®, it can treat you better.

Your home's water might not be as clean as you think

A recent nationwide household water survey conducted by the Environmental Working Group uncovered 22 carcinogenic contaminants including industrial runoff, disinfection byproducts, and radioactive chemicals that could cause health implications for thousands of families across the US.

You can rescue your water

Your whole home's water will be cleaner than federal requirements and health guidelines by significantly reducing contaminant levels. It takes out the impurities that cause foul tastes and smells, such as chlorine, iron, and sulfur. It even removes hardness, without any salt. With 24/7 monitoring and the best support team in the business, rescuing your water has never been easier.

You could give your people Culligan Water™

They will thank you.

Your furry friends will thank you.

Your hair and skin will thank you.

Your appliances will thank you.

Your laundry and dishes will thank you.

Premium Water

The best choice for your home and family.

HANSTM
Premium Water

by *Culligan*[®]

20-year
limited
warranty

Stage 1 Filter

Removes dirt, debris and sand.
Lasts up to one year or 100,000 gallons.

Stage 2 Filter

Removes chlorine, sulfur, foul odors and taste.
Lasts up to one year or 100,000 gallons.

Stage 3 Membranes

Radically reduces contaminants to the levels listed below.

Stage 4 Mineralization

Introduces trace amounts of calcite for pH balance and taste.

Water Use Monitoring

Intuitive touch screen communicates water conditions and service requirements.

The only system certified to remove contaminants to these levels:

	Tested at (Before)	HANS Result (After)
Hardness	600 ppm (35gpg)	<1.0 ppm
TDS (total dissolved solids)	785 ppm	40 ppm
Iron (ferric and ferrous)*	3.46 ppm	.018 ppm
Fluoride	7.54 ppm	0.8 ppm
Nitrate	27.9 ppm	0.9 ppm
Nitrite	3.3 ppm	0.2 ppm
PFOA & PFOS	25,000 ppt	20 ppt
Lead	139 ppb	<1.0 ppb
Arsenic (A3 and A5)	52.4 ppb	<1.0 ppb
Chromium 6	304 ppb	<1.0 ppb
Chloroform Surrogates (48 chemicals)	282 ppb	<0.2 ppb

99.99% reduction of bacteria and 99.9% of reduction in viruses
Detailed test results available at HANSPremiumWater.com
 ppm = parts per million • ppb = parts per billion
 ppt = parts per trillion • gpg = grains per gallon

Specifications subject to change without notice.

*Pre-treatment may be required.

Designed and assembled in an ISO 13485 facility in Michigan.
